

ENVIRONMENTAL POLICY

The following statement of principles and intentions comprise the environmental Policy of Window Fabrication & Fixing Supplies Ltd, which applies to all activities of the company.

Principles

- We are committed to producing, and delivering products and service in the fields of the design of window and door hardware and in their distribution.
- We recognise that our activities result in both a direct and indirect impact on the environment.
- We are committed to minimising the impact of our operations on the environment by means of continuous improvement in environmental performance and preventing pollution.

Intentions

- To comply with all relevant environmental legislation and regulations, and with all other codes of practice and industrial standards to which we subscribe.
- To consider design and supplier involvement.
- To implement and maintain industry waste management and environmental best practice where applicable.
- To set waste management and environmental objectives and targets, and to implement an action plan, addressing those aspects of our activities that have significant environmental impacts.
- To minimise the amount of waste we dispose of, seek to recover through re-use, or recycling as much as is economically practicable and ensure that the remainder is disposed of properly.
- To minimise the use of energy, water and other materials through monitoring and increasing the efficiency of use.
- To communicate to our employees, customers and suppliers our policy and achievements in improving our environmental performance as applicable. To ensure that all employees are aware of their individual responsibilities for acting in accordance with this policy.
- To review and monitor periodically our objectives, targets, action plans and overall environmental performance.
